

SoapBlocks

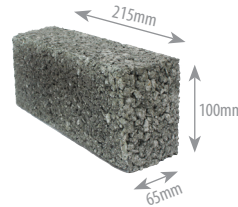

Blocks, Coursing Bricks & Slip Bricks

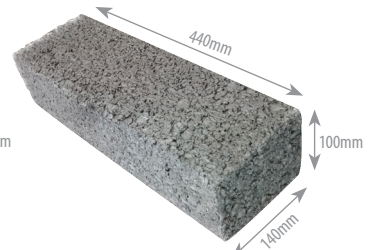

4x4 Soap Bar

6x4 Soap Bar

Common Brick

4x6 Soap Bar

To compliment our range of dense concrete blocks we supply soap bar blocks and common concrete bricks to assist with coarse height adjustments and help eliminate the need for cutting blocks on site.

All our **SoapBlocks** and bricks are manufactured using a unique blend of coarse aggregates providing an excellent key to receive plaster finishes.

Soap Bar Blocks	Size mm	Strength N/mm ²	Approx Weight Kg	Quantity per Pack
4x4	440x100x100	7 / 10.4	9	88
6x4	440x140x100	7 / 10.4	12	66
Brick	215x100x65	10.4	3	128

CE Manufactured to BS EN 771-3

SoapBlocks

- 100 x 140mm soap bar blocks, when laid 'upright', have a face size of 440 x 140mm (two thirds the height of a standard block) and are built with a course height of 150mm.

Three courses match two courses of standard blockwork or six courses of brickwork.

- 100 x 100mm soap bar blocks, and the 140 x 100mm size when laid 'flat', have a face size of 440 x 100mm (half the height of a standard block) and are built with a course height of 112mm.

Two courses match one course of standard blockwork or three courses of brickwork.

● **Rugged for Better Bonding**
