

Turley Bros are one of Ireland's leading manufacturers, suppliers and approved installers of:

- Resin Bound Aggregates and Alpha Hemihydrate Floor Screed
- Concrete Septic and Water Tanks
- Blocks, Bricks & Ready Mix Concrete
- Precast 'A' and 'L' Walls.

Turley Bros Surfacing Products

We have supplied HydriFlo surfacing solutions to a range of clients including Quinns. Lagan and Spanish company Applicator (over 3000 sq m).

HydriFlo

HydriFlo is a pump applied self-levelling anhydrite floor screed and is suitable for:

- Underfloor Heating
- Commercial floors
- Residential floors

HydriFlo is the number one choice for application over underfloor heating:

- Perfect level floors
- Improved U-values
- Reduced screed thickness
- Maximises UFH performance

We supply resin bound surfacing for both residential and commercial clients who have included Tesco, Felix O'Hare, O'Hare & McGovern as well as several NHS hospitals throughout Northern Ireland.

ResinPath

ResinPath is a safe and durable Resin Bound Aggregate surface and is suitable for:

- Streets
- Parks & Gardens
- Driveways
- Tree Pits

ResinPath blends beautifully with urban and rural environments and is:

- Easy to maintain
- Attractive and Durable
- Versatile for various shapes
- Colourful and varied textures

We supply Resin Bond surfacing for both residential and commercial clients throughout the whole of Ireland.

ResinBond

ResinBond is a durable and cost-effective Resin Bond Aggregate surface and is suitable for:

- Streets
- Parks & Gardens
- Driveways and Tree Pits

ResinBond perfectly blends the practical with the beautiful and is:

- Durable and firm grip
- Easy to maintain
- Cost-effective
- Colourful and varied textures

Turley Bros Precast and Concrete Products

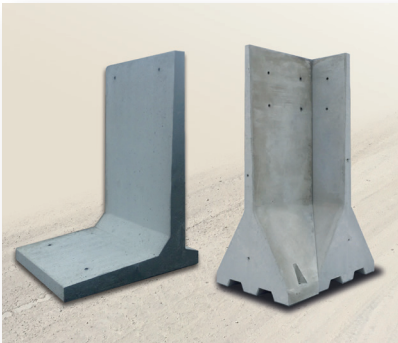

Available in two sizes

MegaBlocks

MegaBlocks are strong and interlocking and are produced from a carefully controlled mixture of quality aggregates and cement to bring you a premier block. Megablocks are ideal for:

- Gardening Projects
- Retaining Walls
- Aggregate Storage bays
- Flood Control Bays
- Security Compounds
- Traffic Calming/blocking
- Partition Walls
- Agricultural use

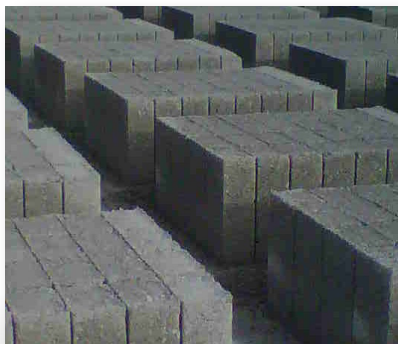

A-Walls and L-Wall Design conform to BS8110

L-Walls

A-Walls

Moveable, concrete retaining "L" and "A" walls make an easy, cost-effective and attractive alternative to standard fixed walls and are ideal for:

- Civil engineering projects
- Housing developments
- Silage, compost and agricultural products
- Retention of soil banks
- Storage of building materials
- Storage of recyclables and waste redistribution
- Extreme contour driveways and gardens

Over 1 million blocks sold throughout Ireland

Blocks+Bricks

Turley Bros' concrete blocks and bricks are produced from a carefully controlled mixture of quality aggregates and cement to bring you a premier block, designed to the highest standards of dimensional accuracy.

Our concrete manufacturing facility, located in Newry, Co Down, is capable of outputting 40,000 blocks, in a variety of sizes and density, per day.

Mixes for all types of building projects

ReadyCrete

We offer a variety of concrete mixes and floor screeds for all types of building projects, from single house builds to large scale building projects. Mixes can be delivered in 6 or 8 cubic metre truck mixers including:

- C10/C15 - Non load bearing walls/garden walls
- C20 - House footings/sub-floors & pathways
- C30/C35 - Heavy wear and heavy vehicular access
- C40/C45 - Agricultural use (slurry/silage pits)

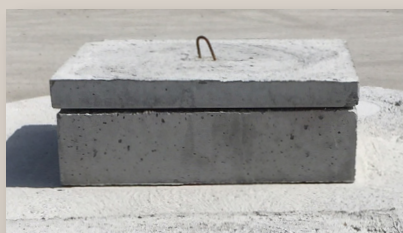

Turley Bros Concrete Tanks

All Turley concrete tanks conform to the current Standards of Environmental Practice as per the EPA Code of Practice and has achieved European EN 12566-1 certification.

Whilst solid and robust, Turley Concrete tanks are easy to deliver, manoeuvre and install.

Concrete Tank accessories.

Concrete Tanks

Septic Tanks / Advanced Water Treatment Tanks / Water Harvesting Tanks

Turley Bros manufacture three types of concrete tank:

Turley's Precast Concrete Septic Tanks are the ideal preferred storage vessel for on-site septic storage and treatment.

Turley's Concrete Advanced Water Treatment Tanks utilise a system fitted inside the concrete tank which is protected by the robust concrete exterior.

Turley's Precast Water Harvesting Tanks capture the rain water that falls on our roofs and stores it for future use.

All Turley Concrete Tanks:

- Are strong, durable and watertight
- Are easy to install
- 45 N concrete strength
- Utilise large volume capacities
- Are economical

Unlike plastic and fibreglass alternatives, our precast concrete tanks are not only strong, durable and watertight, but gradually strengthen over time.

Meeting all the definitions and mandatory standards of a septic tank in the European Union, our concrete tanks are EN12566-1 certified.

WATER TANK ACCESSORIES

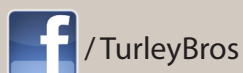

As well as supplying rainwater harvesting tanks, septic tanks and water treatment tanks, Turley Bros also supply a range of accessories including risers, lids and percolation boxes.
